BUSINESS OF THE DAY

1. BACKBENCH BUSINESS

Until 5.00pm (Standing Order No. 9(3))

■ Future of coal in the UK

Mr Richard Holden

That this House has considered the future of coal in the UK.

■ Digital infrastructure, connectivity and accessibility

Esther McVey

Julie Elliott

That this House notes that over one million households do not have an internet connection in the UK and 5.3 million people do not access the internet at all; further notes that repeated

lockdowns as a measure against the spread of covid-19 have highlighted the urgency of achieving nationwide digital inclusion; notes that the Government's decision to change its manifesto pledge from delivering world-class gigabit-capable broadband in 100 per cent of homes and businesses across the UK by 2025 to only 85 per cent will damage the economy and the levelling-up agenda; notes that any investment in superfast broadband without addressing the digital divide will damage social mobility; notes that digital exclusion has the biggest effect on lower-income households, increases the cost of living and widens health inequalities; believes that digital infrastructure is not a luxury resource but an essential requirement; and calls on the Government to invest in a digital catch-up scheme to support the post-covid economy, level up opportunity and

lead to a fairer economy, stronger society and better lives.
