That this House believes that the Government has a duty to ensure that everyone living in the UK is protected from both the health and financial impacts of Coronavirus; understands that long before the pandemic No Recourse to Public Funds restrictions have pushed migrants and their families into poverty and homelessness; recognises that migrants with NRPF have been forced to choose between continuing to work throughout the pandemic or providing for their families; is deeply concerned that migrants who may lose their jobs as unemployment levels rise are at high risk of hardship and destitution; believes that preventing people from entering destitution should be a priority and is more effective than waiting until local authorities have a duty to intervene; believes NRPF restrictions are nothing more than a cost-shunt on to local authorities who are already struggling under the weight of funding cuts; recognises that although the policy allows for applications on a case-by-case basis to have the condition removed, it is incredibly difficult in practice, does not prevent abject poverty, and may unfairly lengthen the route to settlement by five years; further recognises that the hostile environment in all its forms increases racial discrimination; and calls on the Government to urgently suspend NRPF conditions.

1210 Human Rights in Sri Lanka and the Relocation of the BBC Sinhala Service

Tabled: 30/11/20 Signatories: 3

Barry Gardiner
Jim Shannon
Sir Peter Bottomley

That this House notes the recent Foreign and Commonwealth and Development Office reports that the human rights environment in Sri Lanka worsened, with the continuation of surveillance and intimidation of activists and human rights defenders, the detention without charge of a high profile human rights lawyer, and a presidential pardon of the only member of the armed forces convicted

of a wartime atrocity; further notes the withdrawal of the Government of Sri Lanka's support for UN Human Rights Council resolutions 30/1, 34/1, and 40/1 on post-conflict transitional justice, accountability and reconciliation, coupled with the Sri Lankan military forming task forces operating beyond parliamentary scrutiny and being given oversight of civilian functions, as a result of the delays to parliamentary elections without the reconvening of the Sri Lankan Parliament; believes now is not the time to be re-locating the BBC Sinhala service to India with the consequent loss of jobs in the UK as well as the experience, continuity and ability to report impartially on events and to hold the government and military of Sri Lanka to account for their actions; and therefore urges the BBC to reconsider its decision.

1214 Prevent strategy

Tabled: 30/11/20 Signatories: 5

Sarah Owen Rachel Hopkins Jim Shannon Mike Hill Olivia Blake

That this House commends the efforts of all agencies keeping Britain safe from terrorist attacks but believes that the Prevent strategy is not fit for purpose and notes the unacceptable delay from the Government of its overdue independent review of the strategy; further notes that the lower threshold for far right extremism in triggering intervention as well as the alienation and stigmatisation reported by members of faith communities, specifically the British Muslim community, has broken any trust in the strategy; believes that the Prevent strategy's credibility has been increasingly eroded with the inclusion of organisations such as Extinction Rebellion to its watchlist; further believes that extremism in young people is better tackled from a safeguarding approach; and calls on the Government to end the Prevent Strategy and instead work with schools, colleges, universities, communities, charities and local authorities to engage on a trusted and more localised approach which better protects children and young people and ultimately the country from the devastating effects of extremism.
