1 **Planned coalmine in Whitehaven, Cumbria**

Tabled: **10/05/22** Signatories: **1**

Caroline Lucas

That this House is concerned by Government plans to approve the first new coalmine for 30 years in Whitehaven, Cumbria, in order to supply steelworks; notes that industry figures say there's no demand for the mine, and that a former British Steel Chief Executive has warned the plans will delay the conversion to green steel; further notes that coal from the proposed mine will mostly be exported to Europe, will not reduce reliance on Russian coal, and will create far fewer jobs in Cumbria than would be generated by investment in green industries; recognises that no new unabated coal plants, new coal mines or mine extensions can be approved for development after 2021 according to the IEA if global temperature rise is to be limited to 1.5 degrees; further recognises the Glasgow Climate Pact committed the UK to accelerating efforts towards the phasedown of unabated coal power; welcomes the UK's founding role in the creation of the Powering Past Coal Alliance and the Government's recognition that the current statutory duty to maintain and develop an economically viable domestic coal-mining industry is at odds with its climate leadership ambitions and policies on coal; and therefore calls on the Government to urgently rule out any new coal mining in the UK, set a 2035 near zero emission steel target, and amend the Coal Industry Act to give the Coal Authority a statutory duty to manage the phasing out of the coal industry, with priority given to a just transition for workers.

Stephen Farry
Nadia Whittome
Claire Hanna

Zarah Sultana

That this House notes the lack of a sufficient and comprehensive Government plan to decarbonise the UK economy in response to the climate and nature emergencies; recognises public support for bolder and faster action; and calls on the Government to support the Green New Deal Bill, formally known as the Decarbonisation and Economic Strategy Bill, which will introduce legally binding targets in line with the UK's commitment to stay within 1.5 degrees of global heating, reverse inequality, protect and restore nature and the environment, implement new measures of progress that prioritise human and ecological wellbeing in line with the recommendations of the Treasury-commissioned Dasgupta Review, change the way Government manages the economy to enable unprecedented investment in the Green New Deal, end any plans to licence new fossil fuel exploration and new coal mining, establish a comprehensive action plan to transform the UK's energy supply, transport system, farming, land management, homes, buildings, green spaces and the way of working, creating millions of good green jobs across the UK, involve communities, trade unions and workers in the development of the plan, ensuring a just transition by prioritising investment in communities excluded from full participation in the economy and those working in today's high-emissions sectors, enhance the democratic power and resources of devolved governments, local authorities and elected mayors, increase democratic ownership in key sectors including energy, water, transport and mail and advance global justice by ensuring finance and technology for the global South and by promoting the Green New Deal globally.

Tabled: 10/05/22 Signatories: 1

Tabled: 10/05/22 Signatories: 1

Patrick Grady

That this House congratulates all those involved and connected with the Maryhill Burgh Halls Trust as it celebrates ten years since the historic Maryhill Burgh Halls building was reopened in April 2012; notes the Halls, originally opened in 1878 to serve as a police and fire station and municipal facility, had been marked for demolition after falling into disrepair in the late 20th century; further notes the efforts of the Trust, founded in 2004, to save and re-purpose the building as a community hub and venue; thanks the various Burgh Halls Trustees and volunteers over many years for their efforts, including securing £9.6 million from various sources such as the Scottish Government, Glasgow City Council and the Heritage Lottery Fund to redevelop complex; recognises the Trust's efforts in making arts, local heritage and history accessible through community events, workshops, walking trails, exhibitions and the establishment of the Maryhill Museum; acknowledges the provision of work placements and the development of employability skills as part of the Trust's volunteering, placement, and work experience strategy; commends volunteers, board members, staff, Trust members, visitors, supporters, friends, fellow organisations, and contractors for their tireless work to make this possible; and wishes the organisation well for the next ten years and beyond.

6 P&O Ferries and employment rights

Tabled: 10/05/22 Signatories: 1

Sarah Olney

That this House condemns in the strongest possible terms the decision of P&O Ferries to fire 800 staff without notice or consultation with their trade unions, the RMT and Nautilus; demands the immediate reinstatement of the sacked workers; further condemns their replacement with agency workers earning as little as £1.80 per hour; condemns P&O's use of hired private security guards to remove seafarers from their place of work; notes that DP World, the owner of P&O Ferries, received millions of pounds of taxpayers' money during the coronavirus pandemic; calls on the Government to suspend the contracts and licences of DP World and remove them from the Government's Transport Advisory Group; recognises the safety inspections carried out, but asks that the result of these inspections be published in full; and further calls on the Government to bring forward legislation to outlaw fire and rehire practices, strengthen workers' rights, and ensure that operators using UK ports pay seafarers at least the national minimum wage.

7 Melanoma Awareness Month and VAT on sunscreen

Tabled: 10/05/22 Signatories: 1

Patricia Gibson

That this House recognises that May is Melanoma awareness month; understands that melanoma is the most serious type of skin cancer and that that most skin cancers are caused by too much exposure to ultraviolet (UV) rays; is aware that protecting your skin from UV rays is key to lowering the risk of skin cancer; believes that Melanoma awareness month is an opportune time to once again call for sunscreen to be reclassified as an essential healthcare item and therefore be exempted from VAT, given the important role it plays in preventing serious health conditions such as skin cancer; understands that sunscreen is classified as a cosmetic product in the UK and is therefore subject to 20 per cent VAT, which adds around £1.50 to the cost of each bottle; recognises that Cancer Research UK has concluded that being sunburnt once every two years can triple the risk of melanoma skin cancer, and that melanoma skin cancer incidence rates have more than doubled in the UK since the early 1990s; and calls on the Government to therefore take action to remove VAT on this essential product to make it more affordable and to encourage people to protect themselves from the harmful effects of the sun.

8 Abortion time limits and fetal viability

Tabled: 10/05/22 Signatories: 2

Carla Lockhart**Sir Jeffrey M Donaldson**

That this House recognises that the current 24-week abortion time limit is based on an outdated understanding of the viability of premature babies; that the latest science on fetal viability has changed substantially since the law was last changed in 1990, and that 22 weeks is now recognised by the British Association of Perinatal Medicine as the point of viability outside of the womb and the point at which doctors are enabled to intervene to save premature babies; that the UK's abortion time limit is later than the majority of countries in the European Union, where the median time limit for abortions on demand or on broad social grounds is 12 weeks; that polling has shown that 70 per cent of British women favour a reduction in the time limit from 24 weeks to 20 weeks or below; and calls on the Government to reflect these changes in fetal viability in abortion law.

9 New acute hospital in West Hertfordshire on greenfield site

Tabled: 10/05/22 Signatories: 1

Sir Mike Penning

That this House notes that the acute hospital in Watford was the first hospital to be built under the reign of Queen Victoria; further notes that the hospital has since been developed in an ad hoc manner and that the deterioration of its facilities has made it harder for the excellent doctors, nurses and auxiliary staff to carry out their work; notes that there is a lack of affordable parking facilities for staff, patients and visitors as a result of its location next to a Premier League football club; recognises the further pressure put on the hospital's facilities following the closure of acute services at St Albans and Hemel Hempstead which were opposed by the majority of local residents; and calls on the Government to halt the taxpayer-funded redevelopment of the Watford site and welcome the news that £590 million is available for a new acute hospital on a greenfield site that can serve all of the growing population of West Hertfordshire.

10 Votes on Standards MotionsTabled: **10/05/22** Signatories: **1****Wendy Chamberlain**

That this House notes the investigation and findings on the Owen Paterson case by the independent Parliamentary Commissioner for Standards and Committee on Standards Report published on 26 October 2021, HC797; is concerned that the former Member was able to cast a vote on a motion relating to his own suspension; recognises that there is a conflict of interest inherent in Members voting on motions relating to their own conduct; notes that the Prime Minister is being investigated by the Privileges Committee in relation to his own conduct in the House; and calls on the Government to urgently bring forward a motion for consideration by the House proposing amendments to Standing Orders to prevent Members voting on motions relating to their own conduct.

12 Proportional property taxTabled: **10/05/22** Signatories: **1****Grahame Morris**

That this House notes the UK cost of living crisis hitting family budgets; expresses concerns that people are unable to meet the cost of housing, food and utilities; believes the public cannot sustain further tax increases and recognises the need for fairer not higher taxes; notes that Council Tax disproportionately penalises deprived communities that have lower wages and property values; calls on the Government to replace Council Tax and Stamp Duty with a Proportional Property Tax securing an average annual saving of £556 as well as lowering taxes for 77 per cent of households; notes the policy supports the current levelling up agenda, benefitting the poorest communities most; further notes that in addition to assisting with the cost of living, a Proportional Property Tax would deliver an economic stimulus through increasing incomes in areas experiencing the fastest high street decline; recognises that in areas with an overheated property market, people on low incomes can live in high value properties and therefore welcomes transitional protections to cap any tax increases at £100 a month as well as offering options to defer payment; finally notes that a Proportional Property Tax will help to close regional economic inequalities and would represent the most substantive policy to date in delivering the Government's levelling up agenda.

Tabled: 10/05/22 Signatories: 1

Wendy Chamberlain

That this House notes that the What Were You Wearing? art exhibition was displayed in Scotland for the first time at the University of St Andrews in March; understands that the exhibition is a recreation of a number of outfits which were worn by people when they were sexually assaulted; further understands that the exhibition aims to challenge the blaming of survivors of sexual assault by recognising that the clothes someone wears are not in any way a substitute for giving consent; commends the StAnd Together initiative, Kara Stewart, Got Consent Coordinator and other University of St Andrews students for organising the exhibition; stands with survivors of sexual assault; and calls on the Government to do more to counter violence against women and girls.

Chris Stephens

That this House is deeply concerned by the legal process underway in Turkey to shut down the second largest opposition party in Turkey, the People's Democratic Party, HDP; notes the case filed by Chief Public Prosecutor Bekir Sahin in the Constitutional Court, which claims that the HDP aimed to disrupt the unity and territorial integrity of the State; understands that the attacks on the HDP are also an attack on the democratic rights of the six million plus citizens of Turkey who voted for them; commends the work being done by the HDP in attempting democratic steps towards a peaceful resolution to the Kurdish question; condemns the Turkish Government for trying to criminalise the democratic voice of millions of its citizens; calls for the immediate release of 11 democratically elected former HDP members of Parliament; calls for the release of the thousands of people imprisoned simply for membership of the peaceful, political HDP; is further deeply concerned by the withdrawal, in the same week of Turkey, from the Istanbul Convention, which seeks to protect women from gender-based violence; and calls on the Government to make representations to the Turkish authorities to halt the continuing assault on democracy,
