Noes: 303 (Tellers: Scott Mann, Julie Marson)

Question accordingly negatived.

(2) A long-term strategy for the National Health Service

Motion made and Question proposed, That this House condemns the Government for failing to recognise the current crisis in the National Health Service; regrets that, as a result of Government mismanagement, hundreds of lives may be being lost every week due to the collapse of emergency care while patients are finding it impossible to get a GP appointment, ambulance or operation when they need one; calls on the Prime Minister to acknowledge the crisis and act with the necessary urgency to mitigate the impact on patients; and further calls on the Secretary of State for Health and Social Care to ensure the NHS is never in this situation again by bringing forward a long-term strategy which will end delayed hospital discharges, provide the NHS with the necessary staff to treat every patient in good time, and reform primary and community care to reduce the number of people needing hospital treatment.—(*Wes Streeting.*)

Amendment proposed, in line 1, to leave out from 'House' to the end of the Question and add 'pays tribute to the work done by the National Health Service and recognises that there are pressures on health systems around the world; recognises that all parts of the UK are facing pressures; welcomes that the Government has committed to reduce waiting times in England as part of its strategy to strengthen the NHS and care system with up to £14.1 billion additional funding being made available by government over the next two years to improve urgent and emergency care and tackle the backlog—the highest spend on health and care in any government's history; and regrets that the Scottish and Welsh governments have refused to make similar such commitments.'—(*Steve Barclay*.)

The Deputy Speaker announced a time limit on backbench speeches (Standing Order No. 47(1)).

Question put, That the original words stand part of the Question (Standing Order No. 31(2)).

The House divided.
