That this House joins celebrations on 21 June for International Yoga Day, adopted by the UN in 2015, supported by 177 countries; recalls that, in the words of Indian Prime Minister Modi, at a time when the world seeks peace, yoga is an invaluable gift of India's ancient tradition, it embodies unity of mind and body, holistic approaches to health and well-being, a means to discover the sense of oneness with yourself, the world and nature; notes that medical research shows yoga's health benefits for a range of disorders; urges the application of yoga in prevention and well-being initiatives within the NHS along with other natural, prevention-oriented and cost-effective modalities from India's traditional sciences, such as ayurveda; is aware that there are 5.5 million people suffering from long covid and that the APPG has taken a lead to encourage a pluralistic approach to health through the NHS and seeks opportunities to bring parties together to research in yoga and ayurveda, of which an example is the current study at the London School of Hygiene and Tropical Medicine into ashwaganda in treating long covid; recommends that yoga is widely available throughout the education system, bringing balance and harmony to students and teachers; encourages industry to make yoga learning widely available and provide facilities to enhance the well-being and productivity of employees; and calls on the Government to introduce

yoga chairs in medical schools so upcoming generations of doctors gain a thorough grounding in this time-tested knowledge for themselves and their patients.

half a million people in the UK, remain undiagnosed, running the risk of long term complications including neurological conditions, osteoporosis and, in rare cases, small bowel lymphoma; notes that the average time from the onset of symptoms to diagnosis of 13 years is unacceptable and highlights that it is essential that efforts are made to improve awareness of the condition amongst healthcare professionals and the public; further notes that Coeliac UK's campaign entitled Coeliac Disease is Different for Everyone aims to draw attention to unexplained symptoms of the condition such as extreme fatigue, persistent mouth ulcers, neurological symptoms, anaemia, subfertility and recurrent miscarriage; encourages those experiencing these symptoms or the more commonly recognised such as sickness, diarrhoea, constipation, and stomach pain to visit www.isitcoeliacdisease.org.uk; and calls on the Government to take note of the APPG on coeliac disease's upcoming report into diagnosis and commit to improved training and support for healthcare professionals on the condition.

and Fano, targeting Tigrayan women and girls with particular violence and brutality and Tigrayan forces, also committing rape and sexual violence; further notes that there has been repeated pressure to curtail the funding and mandate of the ICHREE; expresses its full support for the work of the ICHREE; and calls on the Government to mark the UN Day on 19 June 2023 for the Elimination of Sexual Violence in Conflict by ensuring that the ICHREE is provided with the support and funding to complete its investigations and that its findings are followed through in judicial action against perpetrators and their enablers, with restitution for survivors and victims of the violence.

That this House notes that, in May 2023, over 200,000 babies, children and pregnant mothers from low income households across England, Wales and Northern Ireland missed out on their entitlement to the NHS Healthy Start scheme for free fruit, vegetables and milk; also notes that average take up across the three nations is 64 per cent, with some local authorities tackling take up as low as 50 per cent; further notes that due to the digitalisation of the scheme, there are currently over 34,000 households which previously received paper vouchers that have not successfully re-registered; and calls on the Government to adopt the proposals in the Healthy Start Scheme Bill for automatic enrolment, similar to the one which sees low income households receive Cold Weather Payments automatically, to secure full take up of the scheme and overcome barriers such as low awareness and bureaucracy to ensure that every child has the best possible start in life.

That this House pays tribute to rail cleaners working for train companies Network Rail, Transport for London (TfL) and London Underground, who worked throughout the pandemic and since to keep our rail services clean and safe; notes that the vast majority of these cleaners are outsourced to sub-contractors, meaning that they have lower pay, no access to sick pay and pensions and are barred from the free and discounted travel facilities that are given to many other rail workers; believes it is wholly unfair that, while rail cleaners are not in receipt of rail travel concessions, train company directors do receive this benefit; welcomes the recent decision by Mayor of London Sadiq Khan to give travel facilities to all outsourced cleaners working for TfL and London Underground, and that he is exploring the option to bring cleaning in-house; calls on the Secretary of State for Transport to mandate the Train Operating Companies and Network Rail to follow the London Mayor's example and provide free travel for outsourced rail cleaners; and further calls on the London Mayor and the Secretary of State to insource these cleaners, to bring them into direct employment and to end the unjust treatment of these keyworkers.

1305 Fire Safety Remediation in Blocks below 11 metres

Tabled: 13/06/23 Signatories: 6

Hilary Benn
Mary Kelly Foy
Jim Shannon
Richard Burgon
Jeremy Corbyn
Jonathan Edwards

That this House notes with concern that leaseholders living in blocks below the arbitrary height threshold of 11 metres are facing uncapped costs to fix cladding and other building safety defects, which may lead to repossessions and bankruptcy; believes that these leaseholders are no more to blame for the national building safety crisis than those in taller buildings and deserve the same protection; believes that defective buildings of any height may require remediation if they have life critical safety risks, as serious fire incidents in other low-rise buildings have shown since Grenfell; is aware that Grenfell-style ACM cladding is now prohibited on buildings of all heights but that there is no financial support to remove it from sub-11m buildings; is aware that mortgage lenders may require an EWS1 form for homes to be sellable in sub-11m buildings and insurers may require remediation work as a condition of insurance for such buildings; and calls on the Secretary of State for Levelling Up, Housing and Communities to hold the responsible parties to account for unsafe buildings of all heights, to extend the duty to pursue alternative cost recovery routes before passing costs to leaseholders to buildings of all heights, and to establish a building safety fund to approve and control essential safety work for sub-11 metre buildings in cases where developers have not taken on the responsibility of doing so.
