### New EDMs

1136      **Travel-related restrictions and haemoglobin tests for blood donations**

Tabled: **24/04/25**      Signatories: **1**

#### **Bell Ribeiro-Addy**

That this House celebrates the opening of the new Brixton Blood Donation Centre, which has welcomed over 3,700 donors in its first three months of operation, including more than 1,000 first-time donors and 10 per cent identifying as Black; recognises this as a promising step towards improving the diversity of the donor pool; notes with concern that this progress remains insufficient in the face of rising demand for the Ro blood subtype commonly found in people of African descent, which is essential for treating sickle cell anaemia, the fastest-growing genetic condition in the UK, with usage increasing by 15 per cent annually; is aware that only 2 per cent of regular blood donors currently have the Ro subtype; further notes that many willing donors, particularly of African and Caribbean heritage, are being turned away due to travel deferral rules due to the presence of diseases which can be tested for and iron testing protocols that are not precise and reject a number of Black women from donating for low iron levels when a further test could be done; acknowledges the importance of maintaining a safe blood supply, but stresses that outdated and overly restrictive guidelines are excluding healthy donors and putting patients' lives at risk; and calls on the Government, the Medicines and Healthcare products Regulatory Agency and NHS Blood and Transplant to urgently review travel-related deferral policies and haemoglobin thresholds in line with the latest scientific evidence and international practice, including the use of more accurate, population-sensitive testing methods.

growth agenda and its commitment to regional economic growth and prosperity; and urges the prioritisation of the expansion of direct flight routes from Birmingham Airport, especially to underserved destinations like Sylhet, and to engage in dialogue with both domestic and international airlines to address this demand, thereby supporting the UK's broader strategic interests in aviation, trade, and community connectivity.

That this House supports the urgent introduction of the Hillsborough Law to ensure justice, transparency and accountability in public inquiries and inquests; recognises the tireless campaigning of the Hillsborough families and survivors, who have fought for over three decades for the truth to be acknowledged and for meaningful reform; notes that the Hillsborough Law would enshrine a statutory duty of candour on public authorities and officials, ensuring they act with honesty and integrity during investigations and would provide bereaved families with parity of legal representation during inquests; further notes with concern that, despite a commitment made by the Prime Minister in September 2024 that the law would be introduced before the 36th anniversary of the tragedy on 15 April 2025, this deadline was unfortunately missed; believes that this delay risks further undermining trust in the system and prolonging the pain of those affected; and calls on the Government to honour its promise by bringing forward and implementing the Hillsborough Law in full, without dilution, as a lasting legacy of justice and reform in memory of the 97 lives lost at Hillsborough.

**Ruth Jones**  
**Neil Duncan-Jordan**

That this House notes with concern the ongoing absence of a statutory close season for the shooting of hares in England and Wales, despite their status as a priority species under the UK Biodiversity Action Plan; recognises that this lack of protection allows hares to be shot during their breeding season, leading to the orphaning of dependent leverets, compromising the welfare of lactating does and having a detrimental impact on local populations; further notes that brown hare numbers have declined significantly over the past century due to changes in agricultural practices, habitat loss, and persecution such as coursing made illegal under the Hunting Act 2004; acknowledges that Scotland and Northern Ireland have already implemented close seasons for hares; and therefore calls on the Government to introduce a statutory close season for the shooting of hares in England and Wales, in line with modern wildlife management principles and animal welfare standards, to ensure the recovery and long-term survival of this iconic species.

That this House expresses deep concern over the current cost of visa application fees, particularly the lack of a fee waiver for indefinite leave to remain (ILR); notes that in June 2022, the previous Government changed the immigration rules for young adults and children to shorten the settlement route for young migrants on the private life route, making them eligible for settlement after five years of temporary status; further notes that, since then, limited leave to remain application fees having risen by 47% since 2022 to £3,845, making them increasingly unaffordable and pushing young people and families into financial hardship with risk of losing their lawful status; recognises that the absence of a fee waiver for those unable to afford ILR has a profound impact on young people who have grown up in the UK and are eligible, leading to severe financial and mental health challenges, and no hope of permanent status, simply because of the lack of fee waiver; and urges the Government to conduct a full review of the impact of current visa fees on young migrants and children and to extend fee waivers to ILR applications on the private life route to enable these young adults and children to secure their future and fully participate in the society they call home.
