#### 1252 **Rob Dunkley fundraising**

Tabled: **13/05/25** Signatories: **1**

##### **Graham Leadbitter**

That this House congratulates 21-year old Rob Dunkley, of Auldearn, on his efforts to raise funds and awareness for Medical Aid for Palestine; notes that Rob will be walking 200 miles from Inverness to Orkney as part of his bid to raise money for the charity; commends his efforts as part of his first ever fundraiser; and wishes him success for the walk.

#### 1253 **Reductions to CrossCountry trains catering services**

Tabled: **13/05/25** Signatories: **4**

**Rachael Maskell**

**John McDonnell**

**Mary Kelly Foy**

**Grahame Morris**

That this House is concerned that CrossCountry trains is the latest passenger train operator to announce cuts to the provision of on-board catering services on long-distance rail services; is further concerned that these short-sighted cuts risks hundreds of railway jobs, while pushing passengers away from the railway network; notes that the provision of rail catering services across the industry has been under attack for many years by train companies seeking to cut costs and staffing at the expense of passenger service; further notes that there has already

been a significant reduction in catering services since privatisation 30 years ago, with nearly all restaurant areas on trains abolished and the traditional buffet counter now also disappearing on many services; believes the availability of snacks, drinks and in some cases light meals is an added value to the travel experience on our railways; further believes that on-board catering workers should be celebrated by train operators as an important part of the on-board team, offering passengers excellent customer service and providing reassurance; and calls on CrossCountry to reverse these cuts and on the Government to ensure that Great British Railways presides over expanded and properly funded catering provision, staffed in-house.

1254 **Service with the British Commanders'-in-Chief Mission to the Soviet Forces in Germany, 1946-1990**

Tabled: **13/05/25** Signatories: **1**

**Ben Obese-Jecty**

That this House recognises the courage, service and commitment of the service personnel who served in the British Commanders'-in-Chief Mission to the Soviet Forces in Germany (BRIXMIS) in East Germany during the Cold War; further recognises the high risk involved in the conduct of the intelligence collection patrols campaign against Warsaw-Pact forces, unarmed, without protective equipment or communications devices; highlights the vital value of the raw, actionable intelligence gathered; also recognises that the East German secret police and military forces were directed to kill or injure members of the Allied Military Liaison Missions, British (BRIXMIS), United States (USMLM) and French (FMLM) military personnel; notes that the duration of the operation which spanned from September 1946 to October 1990 saw the award of 58 OBE, MBE and BEM awards and honours, but leaves around 900 former service personnel with no formal recognition of their endeavour; highlights that there is a precedent for the award of a clasp to the General Service Medal for non-kinetic operations; and recommends that there should be an award of a BRIXMIS clasp for the General Service Medal, with all those who served during the campaign eligible for receipt of the clasp.

---

1255 **Blunt Knives campaign and knife crime awareness**

Tabled: **13/05/25** Signatories: **1**

**Tristan Osborne**

That this House calls on the Government to support the introduction of blunt-tipped knives, particularly in kitchens, to reduce the risk of knife-related injuries and deaths, particularly in the context of knife crime; and believes that, by making knives less dangerous, even in a domestic setting, the potential for severe injuries from knife attacks can be reduced, potentially deterring some individuals from using them in violent situations.

**1256      Negotiating rights for police officers**Tabled: **13/05/25**      Signatories: **9****Liz Saville Roberts****Rachael Maskell****Cat Smith****Kim Johnson****Mary Glendon****Grahame Morris**

John McDonnell

Ian Lavery

Andy McDonald

That this House notes that pay and conditions for police officers in England and Wales are subject to recommendations by the Police Remuneration Review Body (PRRB) and that its letter of remit each year is drafted by the Home Office, directing it to look at specific areas of pay and conditions and within established parameters; further notes that, while the PRRB can step outside of the areas and limits within this letter, its recommendations need approval by the Secretary of State for the Home Department; believes these restrictions at both the beginning and end of the process remove any true independence from the PRRB; also notes that PRRB recommendations are not binding and there is no right of appeal or arbitration; notes that police officers have no right to take industrial action and that, before the PRRB was introduced in 2014, police pay and conditions were resolved through a Police Negotiating Board and subject to binding arbitration, which is still used in Scotland; further believes that the PRRB process should be reviewed to allow for consultation and collective bargaining, with a system of binding arbitration introduced; insists that this is not asking for a blank cheque or for agreement to unreasonable demands but rather for a compensatory mechanism for the lack of any ability to take industrial action; and calls on the Government to enter into formal negotiations with the Police Federation of England and Wales with a view to reforming the current PRRB system to include binding arbitration.

**1257      Torbay Hospital Nurses League 80th anniversary**Tabled: **13/05/25**      Signatories: **1****Steve Darling**

That this House celebrates the 80th anniversary of the Torbay Hospital Nurses League; notes with admiration that the League has been in existence longer than the NHS itself and is open to all qualified nurses who either trained at Torbay Hospital or were employed there for more than two years; further notes that it is believed to be the longest-running nurses league in the UK, with over 200 members worldwide, including individuals who completed their training as far back as the 1940s; commends the League and its members for their commitment to improving patient and staff experiences, including through the donation of fleece blankets for end-of-life care, matching crocheted hearts for patients and families, emergency clothing and toiletries, dementia support packs, and items to enhance the staff working environment, all funded through craft fairs and coffee mornings held throughout the year; wishes them every success with their 80th anniversary reunion, including the commemorative church service and

celebratory meal; and pays tribute to the invaluable contribution of nurses in Torbay and across the UK, and thanks them for their continued dedication, compassion, and professionalism.

not know about the use of them in their community, or whether they have individually been targeted, that people do not know how, or are unable to, seek information about the data held on them by police forces and other authorities in the criminal legal system and that there should be a statutory obligation on police forces and other related authorities across England and Wales to register and publish details about all the predictive, profiling and risk prediction systems they are developing or using on a publicly available register and that notification should be given to all those who have been processed through these system and to those given risk scores.

1182      **Launch of The Rational Policy-Maker's Guide to Rebuilding the NHS report**

Tabled: **30/04/25**    Signatories: **13**

**Richard Burgon**  
**Ian Byrne**  
**Neil Duncan-Jordan**  
**Kim Johnson**  
**Imran Hussain**  
**Ellie Chowns**

Nadia Whittome

That this House welcomes the publication of the report The Rational Policy-Maker's Guide to Rebuilding the NHS; supports the report's main conclusions that under the 1997-2010 government the NHS improved hugely, public satisfaction went from all-time lows to all-time highs, in the early 2010s international comparisons regularly ranked the NHS as world-class;

notes the report's clear conclusion that the source of the improvement in NHS output was overwhelmingly due to increased funding, and not from greater involvement of the private sector, that the Private Finance Initiative was uneconomic, that using public money to build private sector capacity is expensive and worsens care; further notes that the NHS should be publicly run, publicly funded and free at the point of use; rejects calls for any greater role for the private sector in the NHS; and encourages all hon. Members to read the report and for policy-makers to act in line with its recommendations and findings.

Max Wilkinson

That this House declared an environment and climate change emergency on 1 May 2019, recognising the urgent need for action; notes that the Second Reading debate of the Climate and Nature Bill was adjourned, but not concluded, on 24 January 2025; further notes that the Secretary of State for Environment, Food and Rural Affairs was disappointed that the Bill did not progress; acknowledges the Government's recognition of the climate and nature crisis as our greatest, long-term, global challenge, but that climate and nature policies remain siloed; welcomes the Secretary of State for Energy Security and Net Zero's commitment to collaborate with the Bill's proponents to advance its objectives, including via legislation, alongside the Government's acceleration of four related workstreams, and an annual climate and nature statement; reaffirms the Government's obligations to limit global warming to 1.5°C under the Paris Agreement, and to halt and reverse nature loss by 2030 under the Global Biodiversity Framework; also welcomes Ministers' statements that legally-binding climate goals and nature goals provide certainty, spur investment, address market failures and deliver policy outcomes; notes with concern the Secretary of State for Environment, Food and Rural Affairs' recognition that Britain is among the world's most nature-depleted countries, and the Prime Minister's warning that exceeding 1.5°C will expose thousands of people in the UK to flood risk, economic instability, and national security threats; and therefore urges the Government to allocate parliamentary time for further debate on the Climate and Nature Bill to address these critical challenges.

**1191 Safe sleep standards in early years settings**Tabled: **6/05/25** Signatories: **23**

**Tom Morrison**

**1195 Better Jobs, Better Services campaign**Tabled: **6/05/25** Signatories: **24**

**Kim Johnson**  
**John McDonnell**  
**Rachael Maskell**  
**Bell Ribeiro-Addy**  
**Apsana Begum**  
**Grahame Morris**

Sadik Al-Hassan

That this House notes that the Government has committed to oversee the biggest wave of insourcing for a generation; welcomes the RMT's new Better Jobs, Better Services campaign, calling for an end to outsourcing of essential rail services such as cleaning, station staffing, catering, security, infrastructure and engineering across the rail and metro networks; further notes that RMT research shows outsourcing has cost the taxpayer and farepayer £400 million annually in profits leaking out of the rail industry, the equivalent of a 3.8 per cent fare cut, while insourcing and integrating these services with the rest of the network would provide better

quality, safety and value for money; also notes concerns that outsourcing is driven by employers engaging workers on inferior terms and conditions, such as poor sick pay and pensions, and that outsourcing could be embedding systemic racism on parts of the rail network where workers are disproportionately from a BME background; is encouraged that cleaning, station, catering, infrastructure and engineering services are already provided in-house, or there are discussions to do so, on many parts of the parts of the network; and therefore calls on the Government and devolved transport authorities to extend the policy of building an integrated and publicly-owned railway network to also become a vehicle to end rail outsourcing, delivering better jobs and services.

That this House notes World Asthma Day 2025 on 6 May, and its theme, Make Inhaled Treatments Accessible for All; understands that 7.2 million people in the UK are living with asthma and that it is the most common long-term childhood health condition; regrets that, despite four people dying daily from asthma, of which the majority are preventable according to data from Asthma + Lung UK, 70% of people with asthma are not receiving all three basic elements of asthma care, including an annual review, inhaler technique check and written action plan; supports efforts to extend better care to all those living with asthma, and the implementation of new asthma guidelines from the National Institute for Health and Care Excellence, British Thoracic Society and Scottish Intercollegiate Guidelines Network; and recognises the work of charities such as Asthma + Lung UK to improve asthma prevention, diagnosis, treatment and care across the country.

**Barry Gardiner**  
**Juliet Campbell**

Josh Babarinde

Andrew George

Jon Trickett

That this House notes with concern that the job title of nurse is not currently a legally protected term, despite the high levels of public trust placed in the profession; further notes that, while the title of registered nurse is protected, the widespread and unregulated use of the term nurse by individuals without appropriate qualifications and registration on parts one and two of the Nursing and Midwifery Council (NMC) register poses a serious risk to patient safety and undermines the integrity of the profession; recognises the findings of a Nursing Standard freedom of information request that revealed over 8,000 individuals across 93% of NHS trusts are using the title of nurse without being registered; is alarmed that individuals struck off the NMC register, including those with criminal convictions, can continue to use the title without legal consequence; acknowledges that the term nurse is protected in many other countries as a means of safeguarding the public; supports the Protect Nurse campaign backed by professional bodies, patient safety organisations, unions and the Royal College of Nursing; believes exemptions should apply for the use of the designations such as veterinary nurse and dental nurse; and calls on the Government to support the Nurse (Use of Title) Bill in the name of the hon. Member for Brent East to include nurse as a protected professional title, thereby ensuring that only those registered on part one and two of the NMC register may legally use the term.
