That this House expresses immense concern at the escalating military confrontation between Israel and Iran, which has already claimed hundreds of civilian lives and risks igniting a full-scale regional war; notes that both the Israeli Government and Iranian regime have long records of repressing dissent, violating international law, and disregarding civilian life; believes this crisis stems from militarism, occupation, foreign interference, and a collective failure to prioritise diplomacy, justice, and human rights; recognises that the recent escalation has been fuelled by Israel's occupation of Palestinian land, repeated unilateral cross-border military actions and growing defiance of international laws; condemns the Iranian regime's repression of its people, persecution of women and minorities, and destabilising regional role – including its military support for armed terrorist groups and repeated threats against Israel; further notes with alarm mounting evidence that elements within the Israeli state view this escalation as part of a wider strategy to overthrow the Iranian government – an ambition that risks broader regional conflict and destabilisation, with potentially severe consequences for civilian populations; further condemns the UK's complicity through continued arms sales and diplomatic cover, enabling not only the collective punishment of Palestinians but now

broader regional escalation; calls on the Government to demand an immediate ceasefire, end arms sales to all parties involved and support diplomatic efforts to de-escalate tensions; and reaffirms this House's commitment to a foreign policy based on international law, human rights, and the pursuit of lasting peace and dignity for all peoples in the region.

That this House recognises that farmers and growers, in the UK and overseas, require fair dealing in the grocery supply chain in order to survive and thrive; welcomes the 2008 Competition Commission Inquiry which found that larger retailers and supermarkets often abused their power by transferring excessive risk and unexpected cost to suppliers and then created the Grocery Supply Code of Practice (GSCOP) in 2009 and then the Grocery Code Adjudicator (GCA) in 2013, which established the beginnings of a framework on which to build fairer trading relationships in the grocery supply chain; welcomes some outward positive trends, including that GSCOP fair trade breaches reduced from 79% to 36% between 2014 and 2023; recognises that farmers and overseas exporters, who are not directly covered under the scope of the GSCOP, are subjected to unfair trading practices by large UK corporate buyers as risks and costs are passed along the supply chain where many unfair and abusive behaviours remain masked by a climate of fear or remain unchecked; notes that the petition entitled Reform the Grocery Supply Code of Practice to better protect farmers has over 113,000 signatories; believes the creation of two separate regulators, the GCA and the Agricultural Supply Chain Adjudicator (ASCA), risks fragmenting and weakening regulatory effort; and calls on the Government to bring both regulators together under the GCA, strengthen its powers and resource base, and ensure it is empowered to apply the Principle of Fair Dealing, particularly in respect of production, delivery and payment issues

That this House welcomes the Government's continued commitment to the fracking moratorium, but expresses concern that current legislation defines hydraulic fracturing only by high fluid volume thresholds, excluding lower-volume techniques such as proppant squeeze which have previously caused seismic events, including at Preston New Road in Lancashire; notes that such methods, while technically outside the current definition, pose similar environmental and public safety risks; recognises the urgency of this issue, with proposals for proppant squeeze in North Yorkshire pending; and therefore calls on the Government to update planning legislation

to include all forms of hydraulic fracturing within the moratorium to protect communities, meet seismic safety standards and align with the UK's climate commitments and transition to renewable energy

That this House is deeply concerned by ongoing deaths and serious injuries among UK nationals overseas caused by methanol poisoning, where industrial alcohol is unknowingly consumed in counterfeit or contaminated spirits; notes that methanol poisoning has occurred in countries including Indonesia, Laos, India, Brazil, Greece and within Europe; further notes the 2023 findings of coroner Alison Mutch following the death of a British citizen in Bali, highlighting low public awareness, inadequate Foreign, Commonwealth and Development Office guidance and the lack of a UK Government campaign; regrets that UK travel advice requires users to navigate multiple sections and uses insufficiently strong language; contrasts this with the Australian Government's proactive approach to warning its citizens; recognises that methanol poisoning symptoms are often mistaken for ordinary alcohol intoxication, delaying life-saving treatment; is concerned that travel industry guidance, including that from ABTA, remains minimal; believes stronger public health messaging is urgently required, including clearer online advice, outreach through universities and GPs, and warning materials akin to cigarette packaging campaigns; supports the use of student ambassadors, visual media and real-life case studies to raise awareness; calls on the Government and travel industry to adopt a more robust and visible approach to informing travellers about the dangers of methanol poisoning and staying safe; and further believes that education on this should begin earlier, and supports the inclusion of methanol poisoning awareness within the PSHE curriculum in secondary schools, supported by centrally developed teaching materials and audio-visual resources, to ensure young people are better equipped before travelling.

**1509 Scottish Government restrictions on NHS medical aid to Ukraine**Tabled: **18/06/25** Signatories: **3**

**Mr Angus MacDonald**  
**Martin Wrigley**  
**Helen Maguire**

That this House notes with concern that the Scottish Government placed restrictions on a donation of £800,000 worth of surplus NHS medical equipment to Ukraine, stipulating that it be used for civilian purposes only; further notes that this equipment, including ventilators, beds and oxygen concentrators, was requested by the Ukrainian Government for urgent medical use, including treating wounded soldiers near the front lines; regrets that Scottish Government officials sought assurance the aid would not be used in military hospitals, despite publicly

declaring unqualified support for Ukraine's defence against Russian aggression; is concerned that this ideological restriction undermines practical efforts to save lives in Ukraine and fails to match the UK Government's unequivocal support, which has included humanitarian, financial and military aid; further notes expert views that nothing in international rules prevented the Scottish Government from donating the equipment unconditionally; and calls on the Scottish Government to remove any such restrictive conditions on future medical aid to Ukraine and ensure that all humanitarian support is offered in a manner that best supports the Ukrainian people's right to self-defence and survival.
