1660      **Accessible facilities and responsible use of RADAR keys**

Tabled: **14/07/25**      Signatories: **1**

#### **Charlotte Cane**

That this House notes with concern the increasing availability of RADAR keys, also known as a National Key Scheme key, for purchase through online platforms such as Amazon, which were originally intended to give people with disabilities independent access to locked accessible toilet facilities; notes with alarm that this unregulated access has led to a rise in vandalism, misuse and closures of such facilities across the UK, disproportionately affecting people with disabilities and their dignity, safety, independence and access to public spaces; recognises the importance of ensuring that accessible facilities remain available to those who genuinely need them; further acknowledges the sensitivities surrounding access to accessible facilities, as well as the importance of accessible facilities as safe spaces not only for people with disabilities but also for trans and non-binary individuals, who may face barriers or hostility in gendered facilities; urges the Government to review the sale and distribution of RADAR keys under the National Key Scheme, introduce appropriate safeguards to prevent misuse and work with local authorities, disability organisations and equality advocates to protect, safeguard and improve accessible toilet provision across the UK; and reaffirms the importance of designing public infrastructure that reflects fairness, inclusion, respect for individual dignity and upholding the rights of all marginalised groups.

**1661 Roshaan Khattak**Tabled: **14/07/25** Signatories: **1****John McDonnell**

That this House is alarmed at Cambridge University's failure to respond to security concerns surrounding a postgraduate researcher facing threats believed to come from Pakistan's Inter-Services Intelligence; notes that the researcher concerned, Roshaan Khattak, is an Oscar-nominated filmmaker and academic whose proposed doctorate at Cambridge investigates enforced disappearances and other genocidal crimes in Balochistan, a region of Pakistan intersected by China's multibillion-dollar Belt and Road Initiative; condemns the university's instruction that Roshaan Khattak leave the college accommodation by 30 June 2025, which removed any institutional protection that being a student offers, and refused to do any risk assessments or offer advice; is further concerned that as authoritarian regimes grow more aggressive, academics researching politically sensitive topics will continue to face serious threats; calls on Cambridge University to publish clear university procedures for handling transnational repression and its effect on academic freedom; and further calls on the university to reinstate Roshaan Khattak's PhD progression.

**1662 Pilling Jubilee Silver Band**Tabled: **14/07/25** Signatories: **1****Cat Smith**

**1663 Access to care and support for people living with arthritis**Tabled: **14/07/25** Signatories: **1****Sarah Gibson**

That this House recognises the significant impact that arthritis and other musculoskeletal conditions have on the lives of over 10 million people across the UK; acknowledges that arthritis can affect mobility, independence and quality of life, and is a leading cause of pain and disability; notes concerns raised by patients and healthcare professionals about long waiting times for diagnosis, treatment and joint replacement surgery, as well as variation in access to services such as rheumatology, physiotherapy and pain management; further notes

that in rural areas such as Wiltshire, patients may face additional barriers in accessing care, including longer travel times to clinics, limited availability of local services and workforce shortages; believes that access to high-quality, timely and local care is essential to improving outcomes for people living with arthritis; supports the expansion of early intervention and community services, including improved access to GPs, pharmacists and diagnostic services; recognises the importance of investment in medical research to improve treatment options and quality of life for people with long-term conditions; and calls on the Government to work with NHS leaders, patient groups and researchers to improve services for people with arthritis, address the particular needs of rural communities, and support efforts to reduce variation and delays in care.

**1668 Mental health in farming (No. 2)**Tabled: **14/07/25** Signatories: **1****Mr Lee Dillon**

That this House recognises the significant stresses faced by farmers, including rising production costs, lower margins, Government policies and long hours, and acknowledges the negative impact these factors can have on their mental health; notes with concern that 95% of young farmers in the UK consider mental health to be the biggest hidden danger in the industry, and that this may make farmers less likely to assess workplace risks, potentially leading to a higher number of accidents and injuries on farms; further notes that in 2024, farmers under 40 worked an average of 59 hours a week, and that 44% of farmers aged 41–60 worked more than 81 hours in a week; highlights research that working more than nine hours a day gives a one in three chance of having a workplace accident or near miss; urges the Government to recognise the mental health implications of their policies on farmers and the possibility that current decisions may increase the likelihood of accidents and injuries at work; and calls on the Government to

increase the farming budget by £1 billion a year and improve access to mental health services in rural areas by supporting the continued roll-out of mental health hubs.

improvements are needed, to produce clear, measurable action plans outlining how they intend to close these gaps.

1671 **Peace and sovereignty in the Democratic Republic of the Congo**

Tabled: **14/07/25** Signatories: **1**

**Kim Johnson**

That this House expresses deep concerns about the devastating violence in eastern Democratic Republic of the Congo and the humanitarian crisis that's caused over 15 million civilian deaths since 1996; notes that Amnesty International and UN experts have reported that the Rwandan-backed M-23 militia is committing war crimes through arbitrary detentions, torture and executions and the plundering of resources; further notes that this violence stems from the exploitation of DRC's vast natural resources by corporations like Glencore, often using child and slave labour; also notes that after independence in 1960, under Prime Minister Patrice Lumumba there was a brief opportunity for the Congolese people to benefit from their resources; notes that the best path to peace and prosperity for the DRC lies in democratic ownership of its resources; further notes that the recent 'minerals-for-security deal' brokered by President Trump on the basis of continued foreign exploitation of rare minerals from eastern Congo risks deepening the root cause of the conflict and a re-escalation in violence, human rights abuses, exploitation, foreign occupation and underdevelopment; and calls on the UK Government to use sanctions and other means to hold Rwanda, Kenya and Uganda accountable for their indirect support of M-23 and the Alliance Fleuve Congo, to work to ensure the inclusion of the Congolese people at the heart of negotiations, to recognise their sovereign right to democratic control of their resources, and to demand accountability for human rights violations, in order to ensure a just and lasting peace is secured.

1672 **National Day of Memory for Victims of Honour-Based Abuse, 14 July**

Tabled: **14/07/25** Signatories: **3**

**Apsana Begum**  
**Nadia Whittome**  
**Kate Osborne**

That this House recognises the National Day of Memory for Victims of Honour-Based Abuse on 14 July as an opportunity for remembrance, reflection and collective action in commemoration of those that have lost their lives due to honour-based abuse; commemorates with profound sadness that the day falls on the birthday of Shafiea Ahmed, a young woman who was murdered for bringing perceived shame on her family; is alarmed that honour-based abuse remains largely hidden and underreported and can involve many different elements including domestic abuse, coercion, violence and murder; reaffirms that everyone should be able to live free from abuse and expresses solidarity with survivors; reiterates calls to establish a statutory definition of honour-based abuse to ensure consistent recording, prosecution, and prevention efforts; and calls on the Government to ensure sustainable and long-term funding at the

level needed for services, including specialist services, so that every survivor can access the lifesaving support they need, when they need it.

1673      **Parthenon Sculptures**

Tabled: **14/07/25**      Signatories: **1**

**Andrew George**

That this House notes that the British Museum still holds about half of the Parthenon Sculptures, controversially removed from Athens by Lord Elgin between 1801 and 1812, during the Ottoman occupation of Greece, and that they remain on display in the British Museum to which they were transferred by Act of Parliament in 1816; considers it unacceptable for these sculptures to be held and displayed in the UK, not least because the sculptures have been damaged whilst in the museum's possession; further notes that those Parthenon Sculptures remaining in Athens have been well displayed since 2009 in the purpose-built Acropolis Museum in the shadow of the Parthenon; is encouraged by reports of a stronger and developing partnership between the British and Acropolis Museums, and reports that British Museum Chair of Trustees, George Osborne, has indicated his support for this to include the return of the sculptures; also notes that opinion polls have shown a majority also support the return; and therefore calls on the Government to do all that is necessary to cooperate with the trustees of the British Museum, to agree a gracious act to reunite the Parthenon Sculptures with those in Athens and to finally put right this enduring wrong.

that approximately 5,300 people are diagnosed with Sarcoma in the UK each year, making up 2% of all cancers diagnosed in the UK each year; underlines that Sarcoma is often referred to as the loneliest cancer because it has over 100 different subtypes and people with it often never meet someone with the same subtype; thanks Sarcoma UK and other charities for their work in ensuring support is available for people diagnosed with sarcoma; and encourages the Government to ensure that it delivers high-quality care for people with sarcoma in the future.

Jeremy Corbyn

That this House is deeply concerned by ongoing deaths and serious injuries among UK nationals overseas caused by methanol poisoning, where industrial alcohol is unknowingly consumed in counterfeit or contaminated spirits; notes that methanol poisoning has occurred in countries including Indonesia, Laos, India, Brazil, Turkey and within Europe; further notes the 2023 findings of coroner Alison Mutch following the death of a British citizen in Bali, highlighting low public awareness, inadequate Foreign, Commonwealth and Development Office guidance and the lack of a Government campaign; regrets that UK travel advice requires users to navigate multiple sections and uses insufficiently strong language and contrasts this with the Australian Government's proactive approach to warning its citizens; recognises that methanol poisoning symptoms are often mistaken for ordinary alcohol intoxication, delaying life-saving treatment; is concerned that travel industry guidance, including that from ABTA, remains minimal; believes stronger public health messaging is urgently required, including clearer online advice, outreach through universities and GPs, and warning materials akin to cigarette packaging campaigns; supports the use of student ambassadors, visual media and real-life case studies to raise awareness; calls on the Government and travel industry to adopt a more robust and visible approach to informing travellers about the dangers of methanol poisoning and staying safe; and further believes that education on this should begin earlier, and supports the inclusion of methanol poisoning awareness within the PSHE curriculum in secondary schools, supported by centrally developed teaching materials and audio-visual resources, to ensure young people are better equipped before travelling.

**Wera Hobhouse**  
**Mr Joshua Reynolds**  
**Helen Morgan**  
**Sarah Olney**  
**Tom Morrison**

Mr Lee Dillon

Tessa Munt

Jeremy Corbyn

That this House is deeply concerned at the treatment of those facing the Loan Charge; notes that instead of commissioning a truly independent review of the Loan Charge, Ministers announced a highly restricted review, conducted by a former Assistant Director of HMRC, Ray McCann, only looking at settlement terms; expresses astonishment at the fact, exposed by a Freedom of Information response, that HMRC did a deal with large companies over similar schemes for just 15% in 2015, which means they received an 85% discount; is deeply concerned that this has never been revealed to Parliament; notes that this was revealed privately to Sir Amyas Morse, Baron Morse, in 2019 by Ray McCann who also stated that HMRC had refused to offer any discounts to contractors and was treating them uniquely harshly; further notes that HMRC has a duty to treat all taxpayers equally and believes that its treatment of those facing the Loan Charge breaches this; also notes that current Treasury Ministers have described those facing the Loan Charge as victims of mis-selling, yet the Loan Charge remains in place

focused on the victims and that those who mis-sold schemes face no action; notes that HMRC has referred ten suicides and 13 attempted suicides to the Independent Office of Policy Conduct; believes that had HMRC offered an 85% discount to the victims of mis-selling there would have been no suicides; and calls for a proper independent inquiry into the Loan Charge scandal.

**Gavin Robinson**

**Alex Brewer**

Mr Lee Dillon

That this House welcomes the #ProactiveForYourProstate campaign led by Prostate Cancer Research (PCR); congratulates campaigners, such as Teignmouth campaigner Jason Yeo, for their work advocating for prostate-specific antigen (PSA) testing for all men at age 50, and earlier for those in high-risk categories; calls for the Government to back this campaign; notes with concern that prostate cancer is the second-leading cause of cancer death among men in the United Kingdom, claiming more than 12,000 lives each year, while survival rates are close to 100 per cent when the disease is detected early; recognises that men of Black heritage, those with a family history of prostate cancer and carriers of certain genetic mutations face up to double the average risk of diagnosis and mortality; is alarmed that the present informed-choice framework requires men aged 50 and over proactively to request a PSA blood test from their GP, a system that disproportionately fails high-risk and socio-economically deprived groups and entrenches health inequalities; applauds PCR and supporters for highlighting the urgent need for an equitable, population-wide prostate cancer screening programme and for championing greater public awareness; further calls on the Government and the UK National Screening Committee to accelerate the development and roll-out of a national screening pathway that prioritises high-risk groups and eliminates postcode or socio-economic disparities; and urges Ministers to engage with PCR, clinicians, patient representatives and campaigners to introduce interim measures that expand early-detection access while long-term protocols are finalised.

**1608 Protections for the welfare of wild animals in tourism**

Tabled: **7/07/25** Signatories: **14**

**Ruth Jones**  
**Jim Shannon**  
**Neil Duncan-Jordan**  
**Adrian Ramsay**  
**Siân Berry**  
**Ben Lake**

Jeremy Corbyn Liz Jarvis

That this House is concerned about the extreme suffering inflicted on many wild animals exploited in the tourism industry, which are frequently subjected to cruel and unnecessary so-called training techniques, often involving beatings, stabbings and other physical punishments, coercive control, conditioned unnatural behaviours, harmful captive environments in which animals may be subject to long periods of isolation and food deprivation, and stressful interactions which can lead to injury and death of the animals themselves and of tourists and others who interact with them; and calls on the Government to urgently table the activity regulations required to implement the Animals (Low-Welfare Activities Abroad) Act 2023, nearly two years after its passage into law, to prohibit the widespread and persistent advertising and sale in the UK of cruel tourist activities abroad.

**1615 Access to dentistry**

Tabled: **7/07/25** Signatories: **33**

**Edward Morello**  
**Helen Maguire**  
**Tom Gordon**  
**Wendy Chamberlain**  
**Richard Foord**  
**Jess Brown-Fuller**

Carla Denyer Mr Lee Dillon

That this House is deeply concerned by the growing crisis in NHS dentistry, particularly in rural constituencies such as West Dorset, where just 15 dental practices offer any form of NHS care to a population of 94,000, equating to more than 2,300 residents per dentist; notes that only 36% of adults and just 50% of children in West Dorset have seen an NHS dentist in the last two years, contributing to thousands of avoidable A&E visits due to dental decay, including 3,000 children nationally every year; recognises that the current NHS dental contract is not fit for purpose, leaving patients forced to pay privately or go without care altogether; welcomes the

Government's commitment to deliver 700,000 additional appointments, but stresses that this must be accompanied by immediate, practical support for Integrated Care Boards, such as NHS Dorset, to address local need now; highlights the case of a pensioner in Sherborne who, unable to access NHS dental care, has had to extract his own teeth; notes the British Dental Association's findings that 96% of practices in England are not accepting new NHS patients and that 1 in 5 people who cannot access care are resorting to DIY dentistry; further notes that the South West has the highest rate of dental-related A&E attendances and the highest dental vacancy rate in the country at 22%; and calls on the Government to deliver both long-term reform and immediate action to restore access to NHS dentistry, especially in rural and underserved areas.

1616      **Investment in General Practice**

Tabled: **7/07/25**      Signatories: **29**

**Edward Morello**  
**Helen Maguire**  
**Tom Gordon**  
**Wendy Chamberlain**  
**Steve Darling**  
**Jess Brown-Fuller**

Mr Lee Dillon

That this House notes with concern that although about 90% of NHS interactions take place in general practice, only 6% of the NHS budget is allocated to it; recognises that general practice remains one of the most financially efficient parts of the NHS, as highlighted in the Darzi Review 2024, yet continues to be chronically underfunded; further notes that the current funding formula fails to take adequate account of rurality and age, placing additional pressure on practices in areas like West Dorset; expresses concern that in Dorset, over 550,000 GP appointments last year involved waits of more than 28 days; highlights the urgent need to invest in digital infrastructure, including extending the Electronic Prescription Service across hospitals and community trusts to reduce waste, delays and duplication, and to lessen the administrative burden on GPs; also notes that over one-third of GPs report that their buildings are not fit for purpose, with over half of GP premises more than 30 years old and one in five predating the foundation of the NHS; believes that urgent investment in the primary care estate is essential to meet demand, deliver preventative care and avoid long-term costs; calls for a guarantee that patients will be able to see a GP within a week, or within 24 hours in urgent cases, to prevent conditions escalating into avoidable hospital admissions; and urges the Government to properly fund general practice and community healthcare as a vital and cost-effective part of a sustainable NHS.

That this House expresses its extreme concern at the moves to impeach Ayman Odeh, a Palestinian member of the Knesset respected for his consistent advocacy of the need for Arabs and Jews to work together and who is currently facing impeachment and expulsion from the Knesset on the grounds that after the two month ceasefire in Gaza came into effect he tweeted support for the ceasefire and to encourage the release of hostages and prisoners; notes that the Knesset's legal adviser has said that there is no legal basis for his impeachment, but this process is continuing with the result that he will be removed from the Knesset; urges the Government to press for the Israeli government and Knesset to withdraw from this course of action which at this critical time, when we are all hoping that the current peace negotiations are productive; and reminds the Government the expulsion of Ayman Odeh would not only diminish the representation of the Palestinian people in the Knesset but also undermine confidence amongst many that there will ever be a political solution to the current conflict.

to providing the necessary funding for these courses going forwards as part of the Post-16 Education and Skills Strategy white paper.

Hillsborough, the infected blood scandal, the Horizon Post Office scandal and the nuclear test veteran scandal; welcomes the reintroduction of the Hillsborough Law to Parliament, formally titled the Public Authority (Accountability) Bill, which had its First Reading on 2 July 2025; and calls on the Government to honour its word and the memory of the 97 lives lost at Hillsborough by enacting the Hillsborough Law in full, without delay.

That this House is deeply concerned that nearly one million people are currently waiting for mental health services across the UK; notes with particular concern the impact on children and young people, including the 300 currently on the Child and Adolescent Mental Health

Services (CAMHS) caseload in West Dorset; further notes that CAMHS in that area is centralised in Dorchester, requiring families in Lyme Regis or Beaminster to make a 30-mile round trip, often without access to reliable public transport; is alarmed that a single care coordinator may be responsible for as many as 35 young people, and that there is no local access to trauma-informed support such as EMDR or art therapy; believes that no child should be left waiting over a year for vital mental health treatment; and urges the Government to address regional and rural disparities in service provision, increase funding for specialist staff and therapeutic interventions, and ensure that every child and young person has timely and local access to the mental health support they need.

That this House notes the vital role played by community pharmacies in delivering frontline healthcare and reducing pressure on general practice and hospitals; recognises that in areas such as West Dorset, 17 pharmacies dispense around 160,000 prescriptions each month and help save approximately 2,500 GP appointments; expresses concern that despite this growing workload, the funding model has not kept pace with expectations, with pharmacies facing 30% real-terms cuts since 2016 and higher operating costs in rural areas due to fewer economies of scale; further notes that pharmacies in towns such as Beaminster and Sherborne have reported six-figure losses; regrets that 700 community pharmacies have closed in the last two years, threatening access to care, particularly in rural communities; welcomes the Government's commitment of £800 million in additional funding for community pharmacy services this year; but notes with concern that this still leaves a significant £2 billion gap in the sector; and calls on the Government to deliver a sustainable long-term funding settlement for community pharmacies, ensuring they can continue to provide accessible, trusted healthcare in every part of the country.

That this House is deeply concerned about the impacts of extreme temperatures this summer; is further concerned that poorly insulated housing puts lives at risk during heat waves especially for the most vulnerable people suffering with extreme temperatures in care homes, hospitals and temporary accommodation; notes with concern the findings of the Climate Change Committee which confirms that the UK is unprepared for extreme weather events and that the Government and previous Conservative Government have not done enough to address the associated risks to public health; believes the Government should commit to a ten-year Home Upgrade Programme which provides people on low incomes with free insulation including heat humps to make homes cool in summer and warm in winter; recommends that air conditioned community spaces such as leisure centres, community centres, gyms and libraries are used to provide sanctuary in heat waves; and calls on the Government to open cool hubs in public buildings to provide communities with refuge in extreme temperatures urgently.

That this House notes with deep concern the persistent crisis in the special educational needs and disabilities (SEND) system, following years of neglect; welcomes the Government's acknowledgement of the urgent need for reform; further notes the widespread anxiety among parents, carers and professionals that forthcoming changes may undermine the rights of children and young people with SEND; calls on the Government to ensure that any reform is centred on the needs of children, and does not lead to the rollback of existing rights or entitlements in a vacuum; further calls on the Government to ensure that the voices of children and families are placed at the heart of the reform process; believes that reform must include meaningful investment to boost specialist provision alongside improvements to inclusive provision in mainstream schools; further believes that local authorities must be better supported to deliver SEND services, including through extending the profit cap to private SEND providers and ensuring national funding for children with particularly high-cost needs; also calls for improved early identification and intervention, with reduced waiting times for diagnosis, therapies and support; and further calls for a fair funding system that properly incentivises schools to support SEND pupils and to equip staff with the training and tools needed to deliver high-quality inclusive education and pastoral care; and urges the Government to engage constructively on a cross-party basis to deliver a SEND system that meets the needs of every child, young person and family across the country.
